

AXI INTERNATIONAL **TK-240 XT** Mobile Fuel Polishing System

AXI International's TK-240 XT system is a compact, portable, fuel polishing system designed to efficiently clean and restore diesel and bio-fuels to pristine condition. The TK-240 XT system features a LG-X inline magnetic fuel conditioner for the collection of ferrous metals and a strainer and primary filter for the filtration of sludge, particulates, water, and other diesel fuel contaminants. The fuel polishing system's ultra-compact design is ideal for use on small tanks with limited access ports.
